

New Property!
**Santo - La Roca Range: Indian
Cave & Rock Creek**

We have visited 15+ potential new properties this year and will open 5-8 new lakes by Spring of 2019. One of those will open this month and is what we call a premier property, located 50 miles west of Fort Worth. It is a 1 hour drive from Fort Worth, 1 hour and 40 minute drive from Downtown Dallas and 3 hours north of Austin. There are 2 lakes, the smaller 7 acre lake is called La Roca Range: Rock Creek and the larger 31 acre lake is called La Roca Range: Indian Cave. Both lakes are unlike anything we have in the club, with its depth, timber, and cool factor off the charts. Both lakes fish at least twice their size!!

Remember most of the fish will be small, but don't let that stop you because there are big fish as well. In our trial fishing on the big lake two people caught 41 fish in 2.5 hours with 34 fish under 16 inches, 3 fish over 2 lbs. and 3 fish between 4-5 lbs. We lost a 6 or 7 lb fish at the boat. On the smaller lake two people fished and caught 19 fish in just one hour. If you extrapolate that, over a whole day, can you imagine how many fish you will catch? And how many fish over 4 lbs you might catch? We caught them all over the lake. The larger lake has nice mini pontoon boat with one chair up front and bench seat in back. The smaller lake has a Jon Boat with swivel seats. You will need your own trolling motor and batteries. There is currently no boat ramp at the larger lake so you may bring only a kayak or the club provided boats. No outside boats at this time. You may launch a 16 foot or smaller boat at the smaller lake. Please bring several Home Depot/Lowes buckets to harvest your small bass.

The larger lake is \$175 per person per day with a 2 person minimum. The smaller lake is \$125.00 per person per day with a 2 person minimum. We will not be offering ½ day reservations at these lakes.

You may start making reservations for Monday, October 15th. Like most lakes in the club, we will only be fishing the lake 8-10 days a month.

On a side note, we are not at liberty to share where our new lakes will open, but wanted to let you know we are working hard to open more and more lakes.
